

WANTED!! Field Case Managers in Michigan

Come join the Growing Team that is redefining case management!

<http://www.integratedcare.com/>

ICM is a leading disability management firm that provides case management services (field, on-site, catastrophic and vocational) to TPAs, Insurance Companies and Self-Insured firms. ICM also offers Integrated Disability Management Services that integrates Workers' Compensation, Short-Term Disability, FMLA and Long-Term Disability into a single manageable program.

Responsibilities:

Use case management skills to help coordinate the patient's individual treatment plan while maximizing cost containment.

- Educate the patient on injury/disability and the MD's treatment plan. Explain Physician's instructions and answers any questions employee has.
- Work with Physician(s) to coordinate treatment plans to ensure cost containment and best medical care while meeting regulatory guidelines.
- Research and assess alternative treatment programs.
- Work with employer to identify and develop transitional / modified duty based on medical limitations and functional abilities outlined by MD. Assist in development of transitional work programs in effort to return employee to work per MD
- Provide expert testimony
- Coordinate patients appointments and arranges services to assist with compliance
- Coordinate vocational rehabilitation to prepare employee for suitable reentry into workplace based on independent, professional decision making skills if modified duty is not an option
